Enclosures:

No. C-1.1272/43 dated 22nd September 1943.

Sir,

Sub: Iron materials - jaggery pans - cart tyres and axles - Hospet area.

,,,

I have the honor to enclose copies of the letters dated th 9th September 1943 and 16th September 1943 received from the Pre dent, Cooperative Loan and Sale Society, Hospet furnishing an es mate of the requirements of iron and steel for 250 sets of pans for jaggery manufacture, each set consisting of two pans of diff rent sizes, and 600 tyres and 200 axles for country bullock cart The quantities of iron and steel mentioned in the statement refe to in the President's letter have been consolidated in a tabular form as given below:

p3 below

Particulars.	Requirements.	Quantity in tons.	Category.
1. Jaggery pans. 250 sets.	a. M.S. sheets 1/16"X4'X2½' 1500 Nos.	17.43	Black sheets (Plain)
	b. ,, 1/16" X 4' X 2' 1500 Nos.	14.84	,,
	c. ,, 3/32" X 6' X 3' 1000 Nos.	34.85	,,
	d. M.S. rounds 5/8". 17,500 ft.	7.85	Bars.
	e. M.S. Rivets. 200,000 Nos.	2.43	Rivets.
2. Cart Tyres. Renewals.	a. M.S. Flats 2 1/8" X 3/8" X 16000	20.09	Bars.
3. Cart Tyres New.	b. M.S. Flats 2½" X 9/16" X 3200	5.88	,,
4. Cart Axles Renewals.	M.S. square 1 7/8" X 4½" X 100	2.41	,,
5. Cart Axles. New.	1 7/8" X 5' X 100	2.68	,,
	Total tons.	108.38	

Pipe connections for the top pan.

G.I. Pipe - 3' x 1½"
Elbow - 1½" (one)
Flange - 1½" (one)
Nipple - 1 (one)
Cast Iron stop cock - 1½" (one)
5/8" Bolts and nuts - 3.

Requirements for single pa

Requirements for 250 sets sets for Hospet and 50 f Kampli)

G.I. Pipe - 750' x 1½"
Elbow - 250 Nos. - 1½'
Flange - 250 Nos. - 1½'
Nipples. - 250 (Nos.)
Cast Iron stop cock - 250
5/8" bolts and nuts - 75

The total quantity of steel bars, squares, rounds, sh and revets required by the Society amounts to 108.38 tons b pipe connexions specified above. Defectives and scraps can used for any of these items.

2. Jaggery of good quality can be obtained only if each charge of sugarcane juice is boiled in flat bottomed steel pans, by removing the scum as it floats on the surface of the juice, till it solidifies into jaggery. The type of pan used at Hospet is several centuries old. It is hemispherical in shape and three - four times as big as the modern flat bottomed pan recommended by the Agricultural Department. Further the scum is not removed as it is believed that it not only reduces the weight of jaggery but makes the jaggery less sweet. Boiling is commenced in this huge pan in the morning with a fair amount of sugarcane juice but fresh juice is constantly added to the boiling juice till evening when it is allowed to solidify. The result is that the jaggery so produced is of rather inferior quality and is fit only for distilleries in our province and for consumption by poor people in the adjoining taluks of the Bombay Presidency and the Hyderabad State, where this kind of jaggery is in fair demand. The local jaggery merchants who have established markets for this jaggery in the Bombay Presidency and the Hyderabad State are very much against the change in its quality and therefore all attempts of the Agricultural Department for the past 20 years for the improvement of jaggery in this area has not produced satisfactory results, as not more than 15% of the sugarcane growers have taken to the improved methods of jaggery making. Now that the local merchants and the cultivators are unable to find suitable markets for this inferior jaggery, very great demand has arisen for jaggery making pans of modern types. In fact a large number of cultivators are prepared to sell away their present pans of the ancient type for scrap iron and take to the modern pans if steel plates etc. are made available at reasonable rates. Thus this is the best opportunity to replace their antiquated pan with modern pan and I, therefore, very strongly recommend that the entire quantity of raw material asked for by the Co-operative Loan and Sale Society may be made available. This will not only obviate the difficulty of finding market for Hospet Jaggery during the war but will help to maintain the better quality after the war.

3. In the Hospet sugarcane area the cart traffic has very considerably increased during the past 6 - 7 years i.e. from the time the sugar factory was started, as a very large quantity of sugarcane is to be carted in the sugarcane crushing season for long distances from fields to the factory. The roads are bad and rather slushy at the time of sugarcane harvest and the wear and tear of carts is therefore heavy. Owing to the difficulty of securing at reasonable rates the required steel for replacing the old broken axles and tyres during the past two years, a large number of bullock carts have been rendered unserviceable. New carts have also to be built to meet the extra needs of transport due to the conditions created by the war. The quantity of steel asked for by the Co-operative Loan and Sale Society for axles and tyres is not therefore very unreasonable and I recommend that its request may be complied with.

4. The pans and bullock carts are very urgently needed. If the pans were to be useful for this season they must be in the hands of the cultivators by about the beginning of January next. This is possible only if the material required for their manufacture is made available at Hospet by about the end of October the latest. Axles and tyres are required even earlier as the factory commences crushing sugarcane in the beginning of September the latest.

Your obedient servant,

for DIRECTOR OF AGRICULTURE.

Note-file

Dev. Dept.

Iron materials - Jaggery pans - Cart tyres and axles - Hospet area - Supply.

From the DA C.T. 1272/43 dated 2-10-43. (1) / Letter No. (2) Controller Calcutta, dated 30-9-43
From the DA C-T/1272/43 dated 8-11-43 (3)

In September 1943 the Hospet Cooperative Loan and Sale Society applied to the D.A. for the supply of 108.38 tons of iron am for the manufacture of jaggery pans etc. The D.A. recommended the application. On 30-9-1943 the Govt. addressed the Iron and Steel Controller, Calcutta to arrange for the supply of the materials to the Society. On 27-10-43 the D.A. reminded the Iron and Steel Controller by telegram. In reply the Controller has informed the D.A. that he is not in a position to issue a licence for the materials required and has asked the D.A. to apply in the proper form to the Steel Controller (C.S.), Dept. of Industries and Civil Supplies, Simla. The D.A. has sent the application form to the President of the Hospet Coop. Society for filling up before submission to the Govt. On receipt of the application from the D.A., it will be forwarded to the Controller of Steel (C.S.), Simla.

Copy of letter dated 9th September 1943 from the President, The Hospet Co-operative Loan and Sale Society Ltd., Hospet, to the Director of Agriculture, Madras.

Sub: Iron materials required for jaggery pans - details furnished Early supply requested.

According to the conversation we had, I calculated the quantity and the requirements of our ryots. I request you, to approach the Government to supply us the materials within a month, since the jaggery pans have to be manufactured out of the materials fromthe Government and distribute the pans etc. to the bonafide ryots.

before the middle of October 1943. This society will purchase the materials

I therefore request you to kindly supply us the quantities of the specifications mentioned in the statement enclosed at an early date.

--------;------

Copy of letter dated 16th September 1943 from the President, Hospet Loan and Sale Co-operative Society, Ltd., Hospet, to the Director of Agriculture, Madras.

Sub: Jaggery pans for Kampli - additional materials - requirements indented for.

NC

In continuance of my letter dated 9th September 1943, I wish to add the following requirements for the jaggery pans for Kampli centre. They have written to me to say that they require 100 pans and therefore, as per our previous calculations, the following additional materials are required for which I request you to get the necessary permission of the Government for the supply of materials as specified overleaf. I have also enclosed an indent for supply of pipes etc.

1. Total requirements for 100 pans (50 sets).

Particulars.	Specifications.	No. of sheets.	Approximate weight in lbs.	Weight in tons.
M.S. Sheet for sides.	(4' x 2' 6" x 1/16)	300.	7800	3.5
M.S. Sheet for sides (top pan)	(4' x 2' 0" x 1/16)	300.	6300	2.7
M.S. Sheet for bottom for bottom pans - and top pans.	(3' x 6' 0" x 3/32)	200.	13600	6.1
Iron rod.	(3500' x 5/8")	...	3500	1.6
Iron rivets.	(Nos.13, 14, & 15) 400 Nos. for each pan.	40,000.	500 lbs.	.2

2. Pipe connections for the top pan.

G.I. Pipe	3' x 1½"
Elbow	1½" (one)
Flange	1½" (one)
Nipple	1 (one)
Cast Iron stop cock	1½" (one)
5/8" Bolts and nuts.	3.

requirements for single pan.

Requirements for 250 sets (200 sets for Hospet and 50 for Kampli)

G.I. Pipe	750' x 1½"
Elbow	250 Nos. 1½"
Flange	250 Nos. 1½"
Nipples	250 (Nos.)
Cast iron stop cocks	250 Nos. 1½"
5/8" Bolts and nuts.	750 Nos.

AN 23/9/a.

Enclosure to letter of 9.9.43 of the President. Coopt Loan Sale Society...

Jaggery Pans - Bottom pan (boiling takes place) No. of pans required - 200 Nos.

Particulars	No.	Length.	Breadth.	Thickness.	Appro. weight in (lbs.)
M.S. sheets for sides	6	4' 0"	2' 6"	1/16"	156
M.S. sheet for bottom.	2	3' 0"	' 0	3/32"	136
Iron rod.	--	35' 0"	-	5/8"	35
Iron revets.	400	-	-	-	-

For Top Pan: - 7 sheet bundles of 4' X 2' -- for 200 pans.

Materials for single pan

Particulars.	No.	Length.	Breadth.	Thickness.	Appro. weight in (lbs.)
M.S. sheets for sides.	6	4' 0"	2' 0"	1/16	126

RAILWAY BOARD BUILDING, SIMLA, W. C.

ADDITIONAL ASSISTANT SECRETARY TO GOVERNMENT
20 DEC 1943
DEVELOPMENT DEPARTMENT

IMPORTANT NOTE—TO BE READ CAREFULLY.

The Industries and Civil Supplies (formerly the Commerce/Labour) quota of steel is so limited that every ton which is licensed means one ton denied to some other applicant.

2. Moreover unutilised balances from lapsed licences are not permitted to be carried forward from one period and credited to our quota for the next period.

3. Thus a licence which is allowed to lapse denies steel to some deserving applicant in that period, and this effect would be repeated if a compensatory licence were to be granted in a subsequent period.

4. CONSEQUENTLY COMPENSATORY LICENCES CANNOT NORMALLY BE ISSUED, AND ATTENTION IS PARTICULARLY INVITED TO THE IMPORTANT NOTE ON LICENCES AND SUB-LICENCE FORMS DETAILING THE TIME-LIMITS GOVERNING THEIR UNUTILISATION.

5. IF YOU DO NOT REQUIRE ANY OF THE QUANTITIES COVERED BY THIS LICENCE PLEASE REPORT TO THIS OFFICE WHAT QUANTITIES YOU DO NOT REQUIRE AS SOON AS POSSIBLE AND NOT LATER THAN THE FOLLOWING DATES :—

PERIOD I.	PERIOD II.	PERIOD III.	PERIOD IV.
October, 15th.	January, 15th.	April, 15th.	July, 15th.

SO THAT SURRENDERED TONNAGES MAY BE RELICENSED TO SOMEONE ELSE.

No. SCA-SMAD(40)/7108 DATED 11-12-1943.

To

The Additional Secretary to the Government of Madras,
Development Department,
St. George, Madras.

With reference to your letter No.29545-A-1/431, dated the 30th September, 1943 addressed to the Iron and Steel Controller, Calcutta, and transferred to this office for disposal, Licence No.L.D.03038, dated the 3rd December, 19 43, ...

W. 42 (4)

for period II/44 is enclosed together with 4/ sets of sub-licence forms (for your use in accordance with the instructions in the clause 4 of the licence). Please acknowledge receipt.

2. Before preparing your indent for Structurals and Bars covered by this licence, please consult, at the nearest Tata or other Recognised Iron Dealer, the "Combined Section List Abridged for war-time use" issued by Messrs. Tata Iron and Steel Co. Ltd. and the Steel Corporation of Bengal Ltd.

3. The Deputy Iron and Steel Controller, Madras, has agreed to supply you with 8 tons of non-standard sheets for the present and 5 tons black sheets in the future. As regards other categories, your demand has been scrutinised by the Deputy Iron and Steel Controller, Madras and the accompanying licence has been issued in accordance with his recommendation.

As regards your demand for 2.43 tons of Rivets, please split up your requirements in tons to three places of decimals in accordance with para 2 of this office Important Notice dated the 5th August, 1943 a copy of which is enclosed for your information and guidance.

If British Standard Specification or Indian Railway Standard Bolts Nuts Washers and Rivets are required it should be clearly stated by ~~the~~ Commercial quality of Bolts Nuts, and ~~the~~ washers and Rivets will not serve your purpose.

Steel Controller(Civil Supplies)
Department of Industries and Civil Supplies

D.A. 1 licence in favour of Director of Agriculture Madras.
4 sets of sub-licences.
1 Important Notice.

Copy forwarded to the Deputy Iron and Steel Controller, Madras Circle, Parry's Corner, Madras for information with reference to his D.O. No.DISC/M/175/12475, dated the 20th November, 1943 which is acknowledged with many thanks.

OFFICE OF THE STEEL CONTROLLER (CIVIL SUPPLIES)
DEPARTMENT OF INDUSTRIES AND CIVIL SUPPLIES.

'RAILWAY BOARD BUILDING',

Telegraphic address.—"CIVSTEEL". *Simla, W. C., dated 5th August,* 1943.

IMPORTANT NOTICE.

Iron and Steel (Control of Distribution) Order, 1941.

Introductory.—Inspite of repeated explanations, the functions etc. of this office are not clearly understood and, in order to avoid unnecessary correspondence, the following comprehensive instructions are issued for careful note and guidance.

2. *Functions of this office.*—This office deals exclusively with the licensing of 'good' steel (of only the undermentioned controlled categories) required for CIVIL PURPOSES by Industrial concerns, Civil Departments of Government, A. R. P. Services, Public and Local Bodies, Hospitals, and Educational Institutions :—

2. Blooms, Billets & Slal

3. Heavy Structurals.

4. Light Structurals (including light rails of 30 lbs. and under).

7A. Tinplates or P. C. R. C. A. Plates (G. 27 and thinner).

7B. Tinplates or P. C. R. C. A. Plates (G. 26 to G. 20).

8A. Black Sheets (Plain annealed).

8B. { Black Sheets (Plain unannealed).
Black Sheets (Corrugated).

9A. Galvanised Sheets (Plain).

9B. Galvanised Sheets (Corrugated).

11. Plates (Ordinary M. S. including Boiler and H. T.) { 3/16" thick and over, also 1/8" thick over 4 ft. wide.

13A. Bars (including Rounds and Squares 1/2" and above, also Flats, Octagons and Hexagons).

13B. Rods (including Rounds and Squares below 1/2").

14A. Bolts, Nuts and Washers (of only the following sizes and qualities) :—

	(*To be specified separately in tons correct to three places of decimal*)	
	British standard specification or Indian Railway Standard.	Commercial quality.
(a) 1/4", 5/16" & 3/8" dia. Bolts & Nuts ..	..	..
(b) 1/2", 5/8" & 3/4" dia. Bolts & Nuts ..	..	..
(c) 7/8" & 1" dia. Bolts & Nuts ..	..	..
(d) 1 1/8", 1 1/4" & 1 1/2" dia. Bolts & Nuts ..	..	..
(e) Washers	..	..

14B. Rivets (of only the following sizes and qualities) :—

(*To be specified separately in tons correct to three places of decimal*)

	British standard specification or Indian Railway Standard.	Commercial quality.
(a) 1/8", 3/16" & 1/4" dia.	..	..
(b) 5/16" & 3/8" dia.	..	..
(c) 1/2", 5/8" & 3/4" dia.	..	..
(d) 7/8" dia. & above	..	..

16. Wire Nails.

17. Wire (other kinds of Black and Bright Wire).

18. Spring Steel (of any of the above categories).

19. Hoops and Strips.

Note.—On no account should any addition or alteration be made to these categories, and applications are not required to be submitted in duplicate or triplicate.

3. *Categories of steel in short supply.*—There is a particular scarcity of Tinplate and its substitutes ; Sheets of all kinds ; Plates ; Bolts, Nuts and Washers ; Rivets ; Wire Nails ; and Wire. Demands for these should be curtailed as much as possible, by using substitutes or adopting alternative modes of construction, packing etc. For instance Flats, including special Flats of the following sizes (which are categorised under Bars) should be used in lieu of Plates to the maximum extent possible :—

9"×3/8" rising by 1/16" up to 1" thick.
12"×¼" „ „ 1/16" up to 1" thick.
16"×¼" „ „ 1/16" up to 1" thick.

4. *Necessity for keeping down demands.*—The production of iron and steel in India is strictly limited, and every ton that can be spared must be made directly available to the Defence Services. Your demands for good steel must, therefore, be confined to the absolute minimum essential for your purpose, after due and full consideration on the following points :—

(a) Do you require steel indispensably for the job you have in mind ?

(b) If so, can you postpone it till after the war ?

(c) If not, can you utilise scrap or usable defectives ?

(d) If scrap or defectives cannot serve your purpose, wholly or in part, can you not make do with the following quantities of good steel, which you can purchase in the bazaar without a licence in any one month, under the Government of India, Commerce Department Notification No. 350 (55)-I.T.C./42, dated the 10th January, 1942 :—

	lbs.
(1) Light Structurals (including light rails of 30 lbs. and under) ..	112
(2) Black Sheets (plain and corrugated)	56
(3) Galvanised Sheets (plain and corrugated)	56
(4) Bars (including flats, squares, rounds, hexagons and rods) ..	224
(5) Bolts, Nuts and Washers	14
(6) Rivets	7
(7) Wire (Black or galvanised, plain)	14
(8) Wire Nails	14

5. *Manner of submitting applications.*—Applications to this office for 'good' steel must, invariably be accompanied by :—

(a) Detailed explanation why the alternative considerations in paragraph 4 above are not possible.

(b) **Full details of calculation and clear definition of purpose for** demand under each category (or the necessary extracts from estimates approved by a competent authority).

(c) In the case of demands for the manufacture of containers, the numbers of containers by sizes covered by the demand should be specified.

(d) Similarly in the case of packing cases, the numbers by sizes should be given.

Note.—Applications for good steel required to fulfil specific orders of Civil Departments of Government, Local Bodies, A. R. P. Services, etc., should be made through the order placing authorities.

6. *Typical items not dealt with by this office.*—This office does not deal with the following :—

(a) **Supplies against licences and the prices governing such supplies.**—The Director of Engineering (Structural and Mechanical), Calcutta, to be addressed in respect of Bolts, Nuts, and Washers, as well as Rivets ; and the Iron and Steel Controller, Calcutta, in respect of other categories.

(b) **Supplies of scraps and defectives.**—The Iron and Steel Controller, Calcutta, or his Regional Deputies in Madras, Bombay, Karachi, Lahore, Cawnpore and Calcutta to be addressed.

(c) **Priority of supplies.**—The Assistant Master General of Ordnance (Priority and Liaison), Calcutta, to be addressed.

(d) **Requirements of stockholders.**—The Iron and Steel Controller, Calcutta, to be addressed.

(e) **Permits under the Iron and Steel (Movement by Rail and Road or River) Orders, 1942.**—The Iron and Steel Controller or his Deputies, or the local Controller of Supplies to be addressed.

(f) **Permits for purchase of steel without replacement of stock.**—The Iron and Steel Controller, Calcutta, to be addressed.

(g) **Fabricated or manufactured articles in the finished form which do not come within the scope of the Iron and Steel (Control of Distribution) Order.**—For example the Pipe Controller, Calcutta, should be addressed in the case of Pipes.

(h) **Steel required for the manufacture of controlled categories of iron and steel on a commercial scale.**—The Iron and Steel Controller, Calcutta, to be addressed.

(i) **Demand for Pig Iron.**—No licence is necessary for the acquisition of Pig Iron and indents may be placed direct on Producers.

(j) **Demands for Heavy Rails and Spikes, Rail Fittings, etc.**—The Railway Board, New Delhi, to be addressed.

(k) **Demands for Shell Steel, Bullet Proof Plates, Barbed Wire, Telegraph Wire, Galvanised Wire, Tool Steel (i.e., in which the carbon contents are more than 65 %) and Wrought Iron of all categories.**—Special application to be made to Master General of Ordnance, New Delhi, with full justification.

(l) **Non-ferrous metals.**—Deputy Director of Metals, Directorate-General, Munitions Production, Calcutta, to be addressed.

S. A. MAYBURY-LEWIS,
Steel Controller (Civil Supplies).
